Accordingly, energetic counseling is no substitute for medical diagnosis and treatment, nor is it a substitute for psychological or psychotherapeutic treatment or examination.

All statements and advice are not medical diagnoses but represent only descriptions of energetic states.

# EXPLANATION

[Energetic Practitioner]

The energetic treatment is not a methodology in the sense of the empirical natural-scientific field of knowledge. The results of the energetic treatments are therefore not predictable or measurable. I have been informed of this and acknowledge that I have been expressly informed that I am only receiving assistance with the aid of energetic methods which do not constitute orthodox medical treatment. I confirm that no success of any kind whatsoever has been promised to me, in particular no healing or soothing success, and that I freely consent to this treatment. Furthermore, I expressly declare that I also approve the fact that with the present treatment no alleviation or other improvement of my conditions of suffering and diseases is to be expected. The energetic working method does not represent any substitute for medical diagnosis and treatment. I have been informed that I must consult my doctor, psychologist or psychotherapist for diagnosis and therapy. I have paid the treatment fee out of my own free will and expressly declare that I consider the amount to be reasonable. Accordingly, I expressly waive any or only partial reimbursement of the treatment costs paid by me and therefore waive my right to revoke the present contract due to a reduction of more than half of the true value, since the application of the energetic working method represents my special preference in treatment. Unattended appointments that have not been cancelled at least 24 hours in advance must be paid!

Before signing, I have read the above content carefully, understood it in its entirety and approved it.
